## Architects

ISA STEIN and Wolfgang Steinlechner.

## Designer Company

Team M Architects ZT GesmbH in cooperation with ISA STEIN STUDIO

## Detailed Planning

Team M Architects ZT GesmbH

## Area

11,000m<sup>2</sup>

## Materials

granite, steel, concrete, glass, aluminium

## Location

Thalheim bei Wels, Austria

## CORPORATE ARCHITECTURE

The FMT Group is a leading and experienced European service provider for the installation and servicing of industrial plant, offering a comprehensive scope of services.

By order of FMT Industrieholding GmbH and Ferro-Montagetechnik GmbH, the designers have built a head office on the state road between Wels and Marchtrenk. The site extends over an area of 40,000 square meters and contains now office building, workshops, assembly halls and area for the manipulation of containers for world-wide industrial assemblies.

Being ascertainable by driving by is one of the major information medium of a company. Therefore it is crucial that the architecture reflects the vision and the accuracy of the company.

### FORM FOLLOWS FUNCTION

The solution realized now provides a 200 meters long lifeline, connecting the offices with all the operational areas. This structure running along the road is instantaneously spine and centre line of coverage of the whole complex. Additionally it separates the premises from the state road and therefore works as an effective

soundproof wall for the company as well as for the dwelling zone behind it.

The buildings develop parallel to the road. Facilitation of operational actions and easy access for lorries was of particular importance.

Using white, grey and reflective horizontal siding panels result in a shimmering effect of the office ashlar right at the most significant part of the site.

### FORESIGHTED PLANNING

To put companies in the position to be responsive to permanent changes and different demands, expanding possibilities are crucial. Foresighted planning allows us extending the halls and the offices, even building an additional hall as well as covering the atria.

This gives us the possibility to enlarge the premises by up to hundred percent. To guarantee this option at anytime structural analysis and building services engineering are already considered at this point.

### 企业架构

FMT 集团是欧洲的一家全球领先、经验丰富的安装和维修工业厂房的服务商，提供全面的服务。

受聘于 FMT Industrieholding GmbH 和 Ferro-Montagetechnik GmbH，设计师们在韦尔斯和 Marchtrenk 国道之间建立了公司的总部。该建筑场地遍及 4 万平方米，包括办公室、车间、礼堂以及容纳世界各地的工业组件的集装箱的场地。

从公路上驾车经过时可看到该建筑，因此建筑本身成了该公司主要的信息传达媒介。所以，至关重要是，建筑要反映公司的愿景和准确度。

### 形式服从功能

该解决方案现在提供一个 200 米长的生命线，连接所有的业务领域办公室。这座

沿街的建筑中心线覆盖整个建筑群。此外，它还从国道处分隔了房地，这样的设计可以为公司以及它背后的居住区形成一种有效的隔音墙。

建筑群与马路平行发展。业务活动的简化和便捷的交通尤为重要。

建筑物使用了白色、灰色和反光横向壁板在建筑群场址最重要的部分营造了一种闪闪发光的效果。

### 前瞻性规划

为了使公司随时都能适应不断的变化和不同的需求，扩展的可能性是至关重要的。有远见的规划使我们能够扩大大厅和各办事处，甚至增建大堂或遮蔽门廊。

这使我们有可能百分之百地扩建建筑。为了可以随时达到这个目标，结构分析和屋宇装备工程已考虑了这一点。

### MGS + Associates

MGS – Macedo, Gomes & Sobreira – is formed by architects and urban designers Danilo Matoso Macedo (UFMG, 1997), Elcio Gomes da Silva (UnB, 1995) and Fabiano José Arcadio Sobreira (UFPE, 1996).

The office, established in 2004, gathered the experience of its members both as designers and scholars to take part in architectural competitions, winning the third prize on the National Competitions for the Symphonic Orchestra of Minas Gerais Theater, and the first prize for the FHE – Army Housing Foundation – Headquarters.

The partners also act as authors and editors texts, researches and architectural designs on the portal Design Competitions <www.concursosdeprojeto.org>, on the MDC Magazine <www.mdc.arq.br> and on the Docomomo Brasilia Chapter <www.docomomo@sb.org>, among other publications. For each commission, a new partnership comes up, from which the work process is determined.

### Park Associati

Set up in 2000 by Filippo Pagliani and Michele Rossi, PARK ASSOCIATI is an architectural design studio which works on a large scale. The investigation into the dynamics and flows in urban places forms the basis of a wide range of projects for the tertiary, manufacturing and residential sectors. Equally important for the studio is the planning of interiors which pays close attention to both craftsmanship and design. This adopts a transversal approach to the planning process and a vision that seeks to interrelate cultures and specializations, experiments with new technologies and is sensitive to the issues of sustainability and energy saving.

Such an approach opens up new possibilities in terms of scope and vision, and on each occasion gives rise to original compositional landscapes where architecture, place, technology and materials combine to create different spatial forms.

The projects of PARK ASSOCIATI have been showed in several exhibitions and published in Italian and international magazines.

### Isa Stein

She was born in Linz, Austria, 1974  
Education:  
1995-2010: PhD studies at University of Technology, Graz, Austria  
Since 2010: member of the City Linz Cultural advisory board, Linz, Austria  
Since 2006: member of the Upper Austrian Cultural advisory board, Austria

- 2003: Founding ISA STEIN, Studio for art and architecture, Linz, Austria
- 2002: licensed architect
- 2001: Adjunct Professor at William Paterson (3-D design), NJ, USA
- Awards:
- 2009: Collection Upper Austria, Austria
- 2007: Collection City of Linz, Austria
- 2006: Collection Strabag Kunstforum, Austria
- 2005: Collection City of Linz, Austria
- 2001: Certificate in Excellence Award for Outstanding Merit in Graduate Fine Arts, NY, USA
- 2001: Pratt Circle Award for Outstanding Academic Achievement, NY, USA
- 2000: Delacroix Award, NY, USA

### Emmanuelle Moureaux

1971 Born in France  
1995 Graduated in Architecture, University of Bordeaux and Received Architect's Diploma from the French Government  
2003 Received the Japanese First Class Architect's license and Established Emmanuelle Moureaux Architecture & Design, Tokyo  
2009 Renamed to emmanuelle moureaux architecture + design

- Prizes:
- 2005: "Best Installation Prize" (Design Tide/Tokyo): Fresh Touch
- 2007: "Best Store of the Year-Excellent Prize": ABC Cooking/ abc kids
- 2007: "40 Under 40" (Perspective magazine/Hong Kong)
- 2008: "Best Store of the Year-Excellent Prize": ABC ground/CS Design Center
- 2008: "15th CS Design Award- Special Jury Prize": touch the COLOR

### Casper Schuurings, Paul van Dam

Casper Schuurings was born in 15th February, 1958, Netherlands.

He graduated from Academy of architecture of Arnhem and Amsterdam

Work experience:  
Until 1993 various architectural firms Amsterdam

- 1993 – 1998 architectural Office Abel Cahen BNA
- 1998-2010 founder and Director MONK architects BNA
- 2010 – present Director/architect GENT & MONK architects BNA

### Wilfrid Bellecour

Born the 11th January 1967  
Architect D.P.L.G.  
B.A. University of Houston  
1994-2002 ATELIER CHRISTIAN DE PORTZAMPARC  
Main projects:  
Concert hall, Luxembourg  
Housings, Grenoble  
Housings, Deventer, Holland  
Urban Complex Marinao, Fukuoka, Japan

- New cultural equipment, Rennes
- Law court, Grasse
- LVMH Tower, New York
- French Embassy, Djakarta
- Masséna Sector ZAC Seine Rive Gauche,
- Paris Arrangement of Renault grounds, Boulogne-Billancourt and Meudon
- 2003 Foundation of STUDIO BELLECOUR

### Audrius Ambrasas, Vilma Adomonytė, Tomas Eidukevičius, Donatas Malinauskas, Mindaugas Reklaitis, Monika Sriubaite

- Audrius Ambrasas (1962)
- 1985-1994: Vilnius Monuments' Restoration and Planning Institute
- since 1991: owner of Audrius Ambrasas Architects
- since 2004: Assoc Prof, Dept of Architecture, Vilnius Gediminas Technical University
- Vilma Adomonyte (1972)
- since 1997: Audrius Ambrasas architects, architect
- Tomas Eidukevicius (1977)
- 2002-2003: Laima ir Gintas projektai, architect
- 2003-2008: Audrius Ambrasas Architects, architect
- Since 2008: TEArchitecture, owner
- Donatas Malinauskas (1978)
- Since 2003: Audrius Ambrasas Architects, architect
- Mindaugas Reklaitis (1983)
- 2005-2006: architecture office IaN+, Rome, Italy
- since 2004: Audrius Ambrasas architects, architect
- Monika Sriubaite (1982)
- 2005: Deckert Mester Architekten, Erfurt, Germany
- 2006-2008: Audrius Ambrasas architects, architect

### de Architekten Cie. Amsterdam

de Architekten Cie. combines strong individuals with experienced teams. Our office comprises approximately 50 professionals from no fewer than 10 countries. Our workshop culture generates innovative solutions and individually tailored projects.

### Giovanni Vaccarini Architetto

It's a planning and designing group that puts in center of its work the quality of the process; quality is meant in all its possible declinations: architectural quality, integrated management of orders, management of information, satisfaction of the client.

The working group is meant as the synergetic collaboration between the designers and all the multiple figures which compete to the definition and the management of the projectual process.

The complexity of the contemporary projectual process imposes a sensibility able to include the inclusion becomes the trial that forms and informs the project: it's a choice of sharing and hybridization.
